

**PIN :** Brass,nickel plated.

A schematic diagram of a room layout. The room is rectangular with a door on the right wall. A long table is positioned against the top wall. Five numbered locations are marked: (1) is near the bottom right corner; (2) is near the top left corner; (3) is near the top center, below the table; (4) is in the center of the room; (5) is near the center right, to the right of (4). There are also several small circles and rectangles representing other furniture or fixtures.
